ABOUT THE COLLEGE

Bombay Hospital and Medical Research Centre, Mumbai, is one of India's most reputed super multi-specialty and tertiary care hospitals. Established in the 1950s by the visionary philanthropist **Shri Rameshwar Das Ji Birla**, it has remained committed to offering the **best possible treatment at minimum cost**, with excellence in healthcare delivery and compassionate service.

With a legacy of trust and clinical excellence, Bombay Hospital has expanded its reach through new branches—first in **Indore (Madhya Pradesh)** in 2003, and recently in **Jaipur (Rajasthan)** - bringing world - class healthcare services to more people across India.

The **Bombay Hospital**, Indore, a **600-bedded NABH-accredited super specialty tertiary care center**, has rapidly emerged as a referral hub, renowned for its infrastructure, expert physicians, and highly efficient nursing care. In line with its core vision of advancing health through education, **Bombay Hospital College of Nursing, Indore**, was established in 2008 to produce competent and compassionate nursing professionals.

The college offering both undergraduate and postgraduate programs including **M.Sc. Nursing** three specialties (Medical-Surgical Nursing, Community Health Nursing, and Psychiatric Nursing) and **4-year B.Sc. Nursing Degree Program**, following the semester pattern as per the **Indian Nursing Council (INC)** guidelines.

Affiliated with **Devi Ahilya Vishwavidyalaya**, Indore and recognized by bet **INC and Madhya Pradesh Nurses Registration Council**, the college is proud to be the **first NAAC-accredited Nursing College in Madhya Pradesh**. It consistently achieves **100% examination results**, reflecting its high academic standards and rigorous clinical training.

The college follows a **360° education model** that promotes holistic development and real-world readiness of its students. This is achieved through:

- Dynamic student clubs, NSS unit, and value-added activities
- Latest evidence-based and digital teaching-learning methodologies
- Highly qualified faculty and interdisciplinary teaching approach
- Wide clinical exposure within NABH-accredited hospital settings
- Research and innovations. Robust academic-industry collaborations and hands experiences
- A strong foundation in ethics, leadership, critical thinking, and professional values

The college is guided by a vision to develop globally competent and ethically driven nursing professionals, and a mission to contribute to the health and well-being of society through excellence in education, research, and clinical practice.

Bombay Hospital College of Nursing, Indore continue to up hold the institution's legacy by fostering nursing environment where future nursing leaders are shape not only to meet the demands of today's healthcare system but to transform them

PHILOSOPHY

Bombay Hospital College of nursing believes that:

- We believe that health is a fundamental right of every individual, encompassing physical, psychological, social, economic, and spiritual well-being.
- We recognize that wellness is a personal perception, influenced by an individual's ability to adapt to illness and life circumstances.
- We believe that individuals have the right and responsibility to participate in decisions related to their own health and wellness.
- We recognize that society is diverse and dynamic, shaped by cultural, social, economic, religious, environmental, and political factors, which must be respected in nursing care.
- We believe that nursing is both a science and an art, drawing knowledge from the physical, biological, and behavioral sciences, humanities, and lived experiences.
- We recognize that nurses must demonstrate competence, critical thinking, communication, cultural sensitivity, and compassionate care in addressing healthcare needs.

- We believe in collaborative, evidence-based nursing practice that adapts to changing healthcare needs and advances in technology and research.
- We recognize that the scope of nursing includes promotive, preventive, curative, and rehabilitative care across the lifespan in a wide variety of healthcare settings.
- We believe in fostering self-directed, inquiry-based, and lifelong learning, nurturing professional responsibility and ethical conduct among students.
- We recognize the responsibility of faculty as role models and facilitators, creating a learning environment that promotes curiosity, creativity, critical thinking, and personal growth.
